# Fronteiras Institute

**Expanding the boundaries of life in the Juruá Valley**

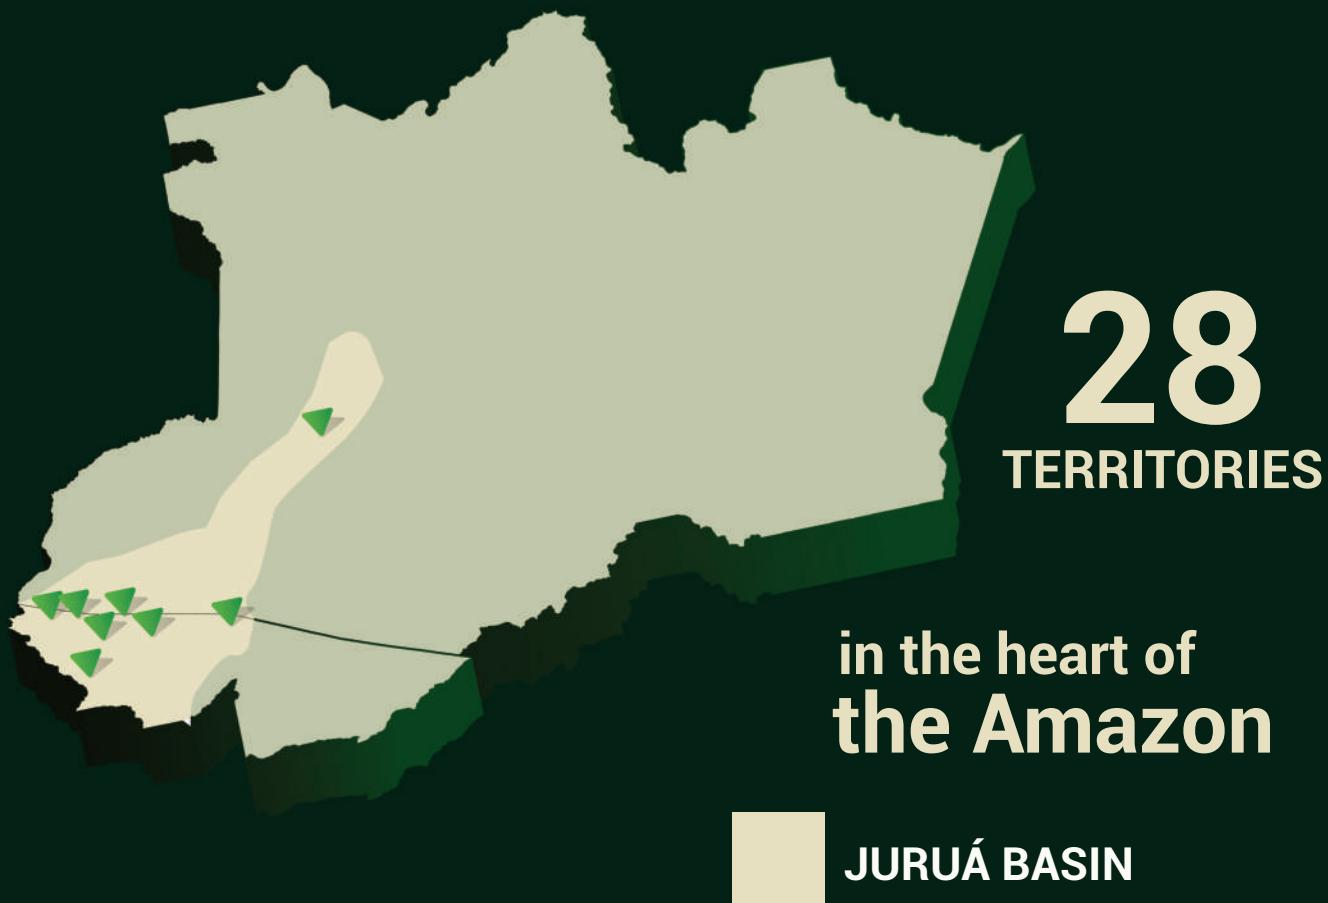

The Fronteiras Institute leads transformative paths that reverse destructive practices, regenerate ecosystems, and strengthen Amazonian communities, promoting a sustainable and inclusive development model.

Fronteiras is our place of transition from overcoming the violence of colonization to a life of affirmation and construction of new forest identities.

# Our Actions

The Fronteiras Institute promotes participatory processes of co-creating innovative solutions for socio-environmental problems in the Juruá Valley with its indigenous peoples and traditional communities, focusing on the local reality of their territories.

**Our actions are divided into 3 Programs:**

- **Transformative Learning**
- **Regenerative Institutions**
- **Territorial Mediations**

Timeline  
2018  
2019  
2020

# Timeline

- Project to support the Katukina in the construction of Kupixawa and the creation of the Katukina Varinawa Association
